CALL

With a click of the mouse you can explore vast libraries of text, graphics and sound with an ease and speed you might never have thought possible. Discover History, Math, Science and much, much more. Use Compton's powerful Idea Search to help guide you through over 33,000 articles and over 7,000 images. As your research proceeds click on Hyper Buttons to retrieve related articles, sounds and graphics. Then, use the IIGS clipboard to cut and paste text and graphics into your own reports and documents.

CROSS-WORKS

Apple II to IBM PC or vice-versa file translator, works easily and quickly; allows you to transfer files from one computer to the other, with no modem needed!

Its Easy! Just plug the CROSS-WORKS universal cable into the serial ports on your Apple II and IBM-PC (no tool or modem needed). Start the program, and pick the files you want to transfer from the menu. In seconds, CROSS-WORKS copies the files in either direction between your computers at 19,200 baud, and automatically converts the files to match the software you want to use!

- Comes with cable, Iie, Iic, IIGS to IBM PC XT, AT, PS/2 or compatible
- Both 5 1/4 and 3 1/2 inch disks
- Automatic one step transfer &-translation of files
- Works with a modem too!
